

Visitor Restrictions Effective March 28, 2022

Amended March 24, 2022

Thank you for your understanding and your assistance to keep everyone safe!

Visitors for Outpatient, Ambulatory, Emergency Department, and Hospitalized Patients

- All patients, unless Covid positive will be permitted visitation based on established visitor policy.
 - Limited visitation for confirmed or suspected Covid-19 patients will be based on guidance from the patient's care provider and the availability of personal protective equipment. Visitation hours are 9 am to 11 am, 1 pm to 3 pm and 6 pm to 8 pm. Only one (1) visitor will be permitted per day. Exceptions will be made in circumstances involving end-of-life or life-threatening situations.

Visitor Screening

- All visitors entering the facility will attest that they are free from any symptoms of Covid-19 upon entering the hospital and all Wayne HealthCare facilities.
- Visitors will attest they will not enter the facility if they have had symptoms in the past 24 hours or exposures in the last 14 days.
- All visitors entering the hospital are still required to wear a mask. A hospital-supplied ear-loop mask will be provided to patients or visitors who do not have a mask. Masks (covering the nose and mouth) must be worn in ALL areas of the hospital and Wayne HealthCare facilities at ALL times, regardless of vaccination status.
- Visitors who refuse to wear a mask will be asked to leave the facility.
- Visitors must wash their hands, or use hand sanitizer, before and after leaving patient rooms and the building.
- Exceptions may be made on an individual basis for those individuals who are unable to wear a mask due to health or disability issues.

Visitor restrictions will continually be evaluated based on the effects of the spread of Covid-19.
